100^{1925 2025} REASONS
FOR A BLANCO UNIT

To mark one hundred years of BLANCO, we are giving you just as many reasons to choose a BLANCO UNIT.

KEEPING IT
BLANCO
SINCE 1925

As a German company, founded a century ago, BLANCO are among the world's leading manufacturers of kitchen taps, sinks and integrated waste and organisation systems.

We are passionate about the heart of your kitchen, the kitchen water place is the hub, where tasks need to run smoothly and efficiently. Our 100 years of experience and cutting-edge innovation can make this space function better than ever.

WELCOME TO THE BLANCO UNIT COLLECTION

The BLANCO UNIT COLLECTION combines BLANCO'S favourite products together, in a curated range of BLANCO UNITS to reflect our latest innovations and trends in kitchen design. This enables you to choose the perfect BLANCO UNIT to match your kitchen space and needs.

The carefully coordinated components of a BLANCO UNIT: sinks, taps, waste and organisation products, complement each other perfectly in terms of function and design. This enable smooth work flows at the water place, keeping everything at arm's reach and makes carrying out tasks around the water place more enjoyable.

THE KITCHEN WATER PLACE.

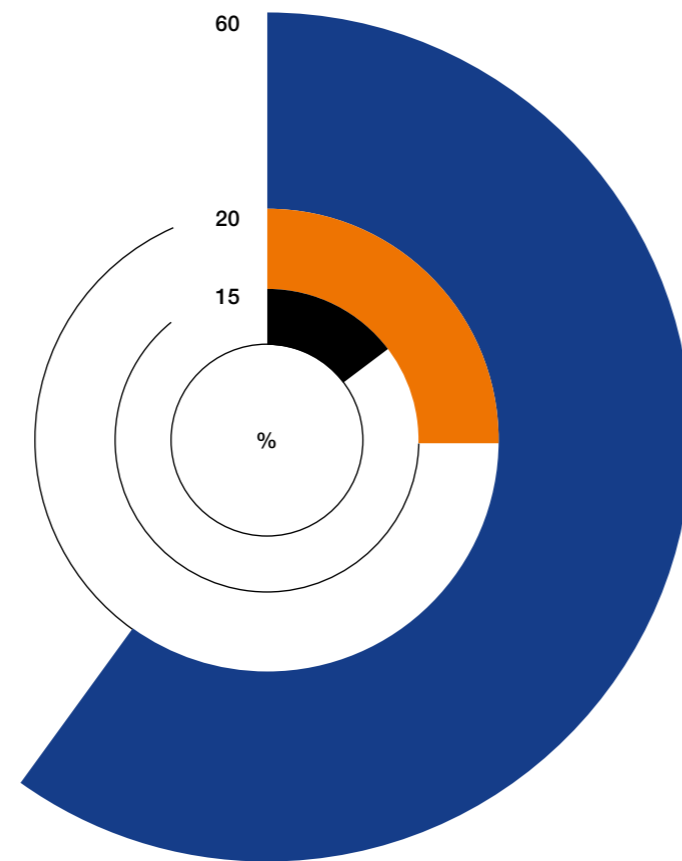

We spend about **60%** of our time in the kitchen at the sink. It's where we fill our glasses, prepare food, rinse dishes, get rid of food waste, store cleaning products and separate the recycling. So it's important to ensure that things happen quickly and efficiently here. Having everything you need within easy reach and working together is key. We've been perfecting this with the BLANCO UNIT for 100 years now.

THE BLANCO UNIT.

WHAT IS THE BLANCO UNIT?

Everything you need to enable **SMOOTH WORKFLOWS** at the water place.

MIXER TAPS

Available in a variety of designs and colours and boasting useful features, our high-quality mixer taps fit perfectly into the overall kitchen style.

ACCESSORIES

With smart accessories, UNITS can be even better adapted to individual wishes.

BOWL OR SINK

The bowl forms the basis of the BLANCO UNIT. BLANCO sinks are available in an array of different sizes, with a range of installation methods, colours and multifunctional solutions for every standard base cabinet.

DRINK SYSTEMS

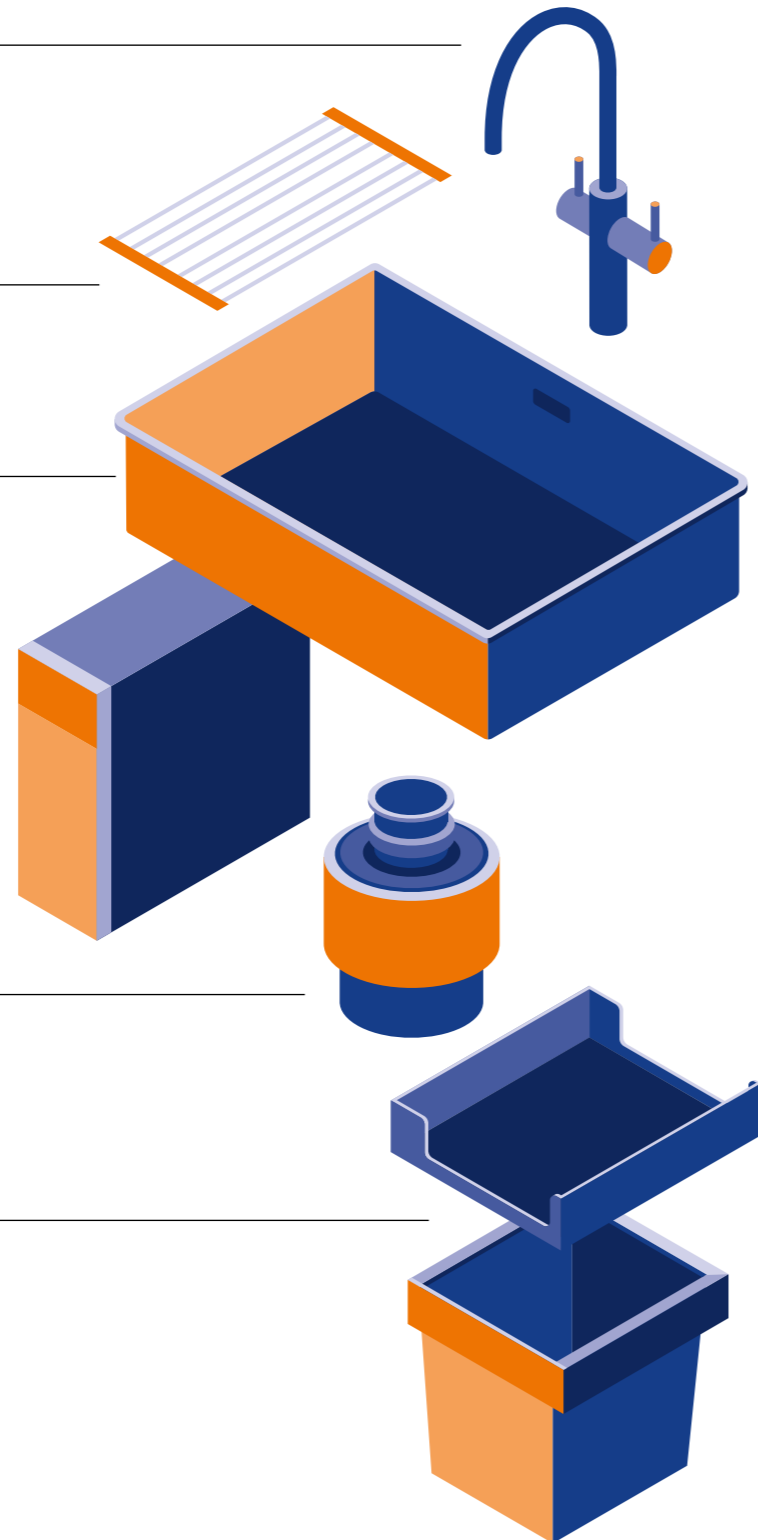

Our water conditioning systems provide exquisitely refined water for drinking or food preparation directly from the tap. Filters reduce unwanted components in the water for a fresh taste.

FOOD WASTE DISPOSER

Makes organic kitchen waste disappear without a trace.

ORGANISATION AND WASTE SYSTEMS

Our modular solutions for base cabinets ensure optimal use of space, with efficient organisation of consumables, water conditioning systems and kitchen waste.

MATERIAL OPTIONS FOR YOUR BLANCO UNIT.

This guide compares the features and benefits of our **SINK MATERIALS**.

How you use your sink is important when deciding which material is right for you and your kitchen because each material has individual characteristics and benefits.

Our range covers everything from the latest contemporary trends to classic lines, so all you have to do is choose the one that best complements your cooking style, kitchen theme and personality.

SILGRANIT®

Silgranit® is a beautiful granite composite material which has been patented and developed exclusively by BLANCO.

- Available in attractive colours
- Superior durability and a smooth silk surface with the look and feel of natural stone
- Easier cleaning, thanks to its water repellent surface
- With Hygiene+Plus, a shield against dirt and bacteria, tests have confirmed that bacterial growth is reduced by an average of 98%
- Discover more about Silgranit at blanco.co.uk/silgranit

STAINLESS STEEL

Stainless Steel differs from most materials in that it can be integrated into almost any kitchen environment. Its most important properties:

- Timeless classic aesthetics
- Does not rust
- Completely heat resistant
- Hygienic and suitable for food preparation
- Stain and acid resistant
- Easy to care for

BLANCO uses only the highest quality 18/10 Stainless Steel to meet the most exacting requirements.

CERAMIC

Sinks made of BLANCO Ceramic create a special homely atmosphere.

Their attractive appearance and glazed surface finish blend with both traditional and modern kitchens.

Ceramic's most important properties:

- Easy to care for
- Food stain and acid resistant
- Colour safe
- Resistant to heat in domestic use
- Hygienic and suitable for food preparation

THE BLANCO UNIT COLLECTIONS.

The **BLANCO UNIT COLLECTION** combines BLANCO'S favourite products together in a curated range of BLANCO UNITS. This enables you to choose the perfect BLANCO UNIT to match your space and needs.

Additionally there are **ENDLESS POSSIBILITIES** to create your ideal BLANCO UNIT from our wide range of products. Browse online at **BLANCO.IE** or talk to your kitchen designer.

CREATING YOUR BLANCO UNIT IN 3 EASY STEPS.

1.

CHOOSE YOUR SINK & TAP UNIT

Each sink within this brochure comes with a tap that is included within the sink **UNIT** price. The tap will vary for each sink family, as the tap is selected to best suit the sink.

2.

CONFIRM YOUR TAP SELECTION

If the included tap doesn't meet your requirements, at the bottom of each page are different finish options or different taps.

3.

ADD WASTE & ORGANISATION SOLUTIONS

Reclaim that no-mans-land area under your sink with BLANCO organisation systems, perfect for storing cleaning products, pet items or sorting your recycling. Or Food waste disposers (FWD) are very convenient when it comes to disposing of leftovers quickly, hygienically and easily.

BLANCO DRINK SYSTEMS.

With BLANCO CHOICE there's limitless ways to enjoy water directly from your kitchen. **ENJOY WATER YOUR WAY.**

State-of-the-art CHOICE provides everything you need for delicious drinking water, food preparation and cleaning. The filter element provides access to great tasting and filtered tap water at any time, within a system that strictly separates drinking and regular water. CHOICE delivers 100° boiling hot filtered water on demand – great for instant tea or coffee or preparing dishes like pasta.

With CHOICE you can select the exact amount of water that is needed before it is dispensed, which helps save water. There really are limitless ways to enjoy water directly from your kitchen with sparkling, boiling, chilled, filtered or regular water all on demand with CHOICE. App control and practical technical aids round off this innovative drink system that is a 'must have' for anyone wanting to future proof their kitchen.

DRINK SYSTEMS

- The revolutionary CHOICE drinks system turns regular water into refined drinking water at the touch of a button
- Redefines convenience, taste and personalisation
- Delivers filtered chilled, 100° boiling hot and sparkling water plus hot and cold regular water
- Select the exact amount of water you want with the rotary dial and save 4 personal drinks settings

BLANCO ETAGON BOWLS.

The **BLANCO ETAGON** concept offers advanced versatility at the sink. This needs-oriented tiered sink is remarkable for its integrated stepped ledge, which creates a highly practical additional level. Positioned on the step, the **ETAGON rails** offer almost unlimited possible uses. For instance, they are ideal for holding pans or steamers, into which you can transfer vegetables straight from the cutting board above. Pair an **ETAGON sink** with a BLANCO Unit drink system to effortlessly fill pots and glasses using the ETAGON rails.

BLANCO SUBLINE BOWLS.

BLANCO SUBLINE is impressive for its large bowl size and compact look. The bowl design is distinguished by its elegant, straight-lined geometry. As **SUBLINE** almost completely vanishes into the worktop's undermount making it a must for minimalistic kitchens and comes in a range of sizes and configurations, to suit all kitchen designs.

SUBLINE

- Our versatile SUBLINE range almost wholly vanishes into the undermount, fitting harmoniously into the worktop: a must for minimalist kitchens
- Straight-lined design: timelessly elegant
- Elegant InFino strainer for swift water drainage, less splashing and superfast bowl drying

MULTIFUNCTIONAL ADIRA.

Our newest sink family has a modern design with superior functionality, equipped with clever accessories, it simplifies food preparation at the kitchen water place and turns the sink area into a fully-fledged work station. ADIRA is available in different models to suit different sized kitchen requirements.

All models include the versatile folding ADIRA grid, which can be used as an additional work level on the sink's draining board, creating a top working level for filling pots or holding hot oven dishes or as a draining surface for dishes. The ADIRA 6 S also features a removable multifunctional colander, which sits neatly in the second bowl and is perfect for rinsing and food preparation, keeping everything in easy reach.

BLANCO SILGRANIT® SINK COLOURS.

Silgranit’s beautiful, smooth and tactile surface is available in a range of design-oriented colours. Colour is such an important part of our lives, especially in our homes, where we use it as an expression of our own style. The **PALETTE OF SILGRANIT SINK COLOURS** runs from monochrome black and white, through to on-trend greyscale shades, into warm earth tones.

THINGS TO CONSIDER WHEN CHOOSING YOUR BLANCO UNIT.

It is essential to be aware of the **CABINET WIDTH** in which your sink will be installed. The bowl (or bowls in the case of a multi-bowl sink), will need to fit into this space. Each sink in this brochure will show a minimum cabinet required to house it successfully.

INSTALLATION FORMATS

INSET SINKS

Inset sinks are installed from above into a pre-prepared hole in the worktop. These sinks are compatible with any work surface, including laminate. It gives you the widest range of sink shapes, sizes and styles to choose from. The frame of an inset sink sits on top of the work surface.

UNDERMOUNT BOWLS

Undermount sinks are installed underneath the work surface and therefore require a solid surface worktop such as granite or wood; they are not compatible with laminate work surfaces.

BELFAST / APRON FRONT BOWLS

Belfast sinks can be fitted undermount, as pictured above or inset with a slight raised edge profile. Belfast sinks are either ‘dropped-on’ to a purpose-built cabinet or by using installation brackets.

TAPS AND SINKS EXPLAINED.

A key to **IMPORTANT FEATURES** and considerations.

We have previously highlighted the importance of knowing your sink cabinet size and what type of sink installation format you are looking for, whether it is inset, undermount or Belfast (apron front bowl). Here is some additional information you'll need to think about when choosing your sink and tap.

TAPS

WATER PRESSURE

BLANCO has a range of taps suitable for low and high pressure systems. BLANCO considers taps 0.3 bar and below as low pressure.

FEATURES

- Pull-Out Spray:** Features a pull-out spray, useful for directional rinsing.

- Volume:** Exact measuring function.
- Filter System:** Dispenses filtered water straight from the tap.
- Sensor:** Motion activated.
- Sparkling:** Dispenses filtered and chilled sparkling water.
- Power:** Power supply needed.

SINK PROFILES

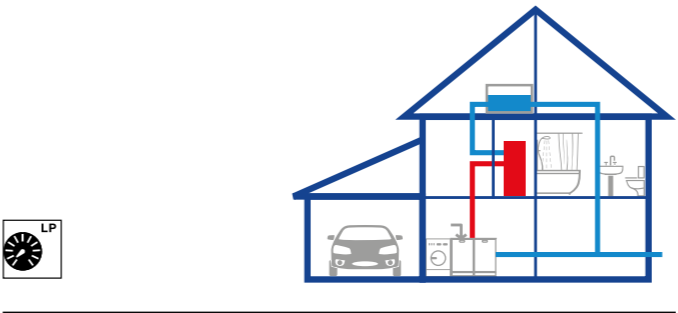

BLANCO sinks come with a range of different profiles.

- Installation from above:** The frame of an inset sink sits on top of the work surface and is installed from above. These sinks are compatible with any work surface, including laminate worktops.
- Undermount:** An undermount sink is installed underneath the worktop, only compatible with solid surface worktops such as granite or solid wood.

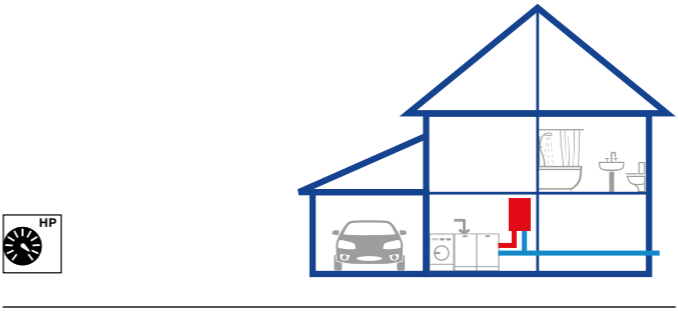

TAP FLOW RATES EXPLAINED.

Before choosing your BLANCO tap it is essential to check whether you have a high or low **PRESSURE WATER SYSTEM**.

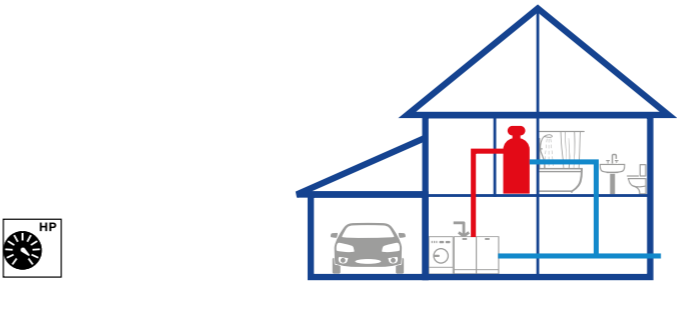

LOW PRESSURE (GRAVITY-FED SYSTEM)

You have a cold water tank in your attic and a hot water tank in your airing cupboard. You should choose taps which state they are suitable for a low pressure system.

HIGH PRESSURE (COMBI-BOILER SYSTEM)

You have a boiler unit but no hot water cylinder, the boiler unit is usually found in the kitchen and delivers hot water on demand. You should be able to choose from most of our taps.

HIGH PRESSURE (PUMPED SYSTEM)

You have a hot water cylinder with an expansion vessel on top (often called Megaflo), usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.

BLANCO consider anything 0.3 bar or below as low pressure. Any higher is considered high pressure.
